

## Sein Customs & Auditing Corporation

- With RM, communicate better with branch offices & improve productivity and work efficiency
- Adopt video conferencing solution with low initial cost by joining the government project

Interviewee : Park Sang-jin, Manager / Management Planning Office

### Before

- Require video conferencing for meetings and communication
- Minimize cost
- Verify sound and image quality/connection performance during a meeting

### After

- Accept RM as an essential remote working tool
- Partially funded by the government
- Satisfied with uninterrupted HD video and sound quality

### Established a contact-free work environment to communicate with branch offices

Sein Customs & Auditing Corp. is the largest group of customs & trade experts in Korea that operates 13 direct branches across the country, nearby major airports and industrial complexes including Seoul head office, Incheon Airport, Incheon Port, and Busan Port.

Professional consultants provide legal and practical advice in the field of customs and trade; from customs refund, FTA, AEO, customs review and investigation, customs dispute litigation to foreign exchange consulting, as well as import and export customs clearance using the customs risk management solution developed alone.

Since the outbreak of Covid-19, SEIN considered embracing remote work for the safety of employees to ensure the flawless operation and continued service even during internal confirmed cases.

Through the government project, RemoteMeeting was offered at a staggering 70% off from the price.

### RemoteMeeting, a professional video conferencing solution with the ultimate performance

To adopt the video conferencing solution, connection performance was verified along with video resolution and voice quality. RemoteMeeting was by far the best in terms of uninterrupted HD video and audio quality, in addition to handling up to 100 participants.

### Easy to use by anyone including senior executives or external businesses

It was necessary to engage video conference platform to organize meetings that allows to connect directly and quickly, especially for senior executives or businesses that are new to online meetings.

RemoteMeeting only requires a 6-digit code to join the meeting, so anyone can simply access from a laptop or mobile device without installing a program.

### An essential tool for today's work

With RemoteMeeting, communication became easier and more convenient with branch offices and telecommuters.

As long as there is an Internet connection, participating in a meeting, or communicating with employees have been less challenging, and it is not restricted to a place or tool.

Try RemoteMeeting if your business is dispersed across different regions or is conducting a remote work scheme.
